## **PURPOSE OF GATEWAY (BLEGW-99):**

To be able to access the lock even if the user (client / admin phone) is out of bluetooth range.

## LOCKS COMPATIBLE WITH BLEGW-99:

PL7100 RS2100

DB9000

DB5000

access the lock.

K3 app sends command to gateway through internet

gateway sends command to lock through Smart Connectivity

WIRELESS RANGE

Gateway (BLEGW-99) requirements:

- 1. Must be plugged in to a power source (AC Adapter not included in box)
- 2. Must be connected to wifi. (setup through K3 app, admin phone)
- 3. Must be within Smart Phone Connectivity range of the lock.

(APPROXIMATELY 30FT.)

Lock is Smart connectivity capable and can be accessed by phone, IF **USER IS WITHIN** CONNECTIVITY **RANGE**. To access the lock outside connectivity range, a gateway

(BLEGW-99) is needed.
